

2011 NEW PRODUCTS

RIFLE

CCI[®] .22 Long Rifle AR Tactical

CCI is The Leader in Rimfire Ammunition[®]. New this year, we designed a load specifically for the AR-style guns being offered in the .22 Long Rifle (LR) chambering. These rounds get excellent accuracy—including 1.5 inches at 100 yards for 10-shot groups in factory testing. Designed for perfect function in AR-style guns, these new LR rounds provide military and law enforcement officials a reliable and affordable option. A CCI case, primer and bullet lube combine with clean-burning powder to provide performance every time.

Features & Benefits

- Excellent accuracy in AR-style .22 LR firearms (1.5 inches at 100 yards in factory testing)
- Target bullet with copper-plated round nose (CPRN) for smooth feeding
- Optimized for AR-style function and accuracy
- CCI case, priming and bullet lube combined with clean-burning powder
- Available in 375-count loose packed re-closeable box
- Specifically tested for S&W M&P 15/22

Part No.

0953
